Explanation - This amendment adds \$250,000 state special revenue authority each year (biennial total \$500,000) to the base budget for the Department of Labor and Industry for the purpose of implementing a pilot program for incumbent worker training. The program would provide training for skills necessary for specific economic opportunities and industrial expansion initiatives, and to provide training to upgrade the skills of currently employed workers at risk of being permanently laid off. The state special revenue source is the employment security account.
